

What makes Omega QD different?

Omega QD is Veterinarian Developed.

Dr. Debbie Decker took a passionate, leading role in selecting the ingredients and developing the product.

Omega QD is a Unique Powder.

Dr. Decker believes, and veterinarians who use Omega QD concur, that a marine-sourced, pectin-added powder formula provides optimum absorbability and results.

Every-Day Freshness!

Omega QD, with its fresh fish source, is free of any foul or rancid odor - Just the aroma of fresh, wild sardines and freeze-dried blueberries throughout its 2-year shelf life.

Omega QD is your one-stop shopping solution.

Our pure Omega 3 solution helps support joint health, skin, haircoat, ear well-being, the brain, immune system, and much, much more...
Now you can buy just one product for your pet's whole body!

"My dog Roscoe looks like a different dog! Other Omega 3 brands just don't compare. I am AMAZED!"
Nikki Tharpe, RVT
Pet Care Associates, Flowery Branch, Georgia

"Currently available products did not produce the results I expected to see in my patients. I wanted something new and different from the liquid oils and gel capsules. It needed to be high quality, all natural, easy to measure with less mess, and readily absorbed from small, concentrated amounts."
"It's not about high volume, low cost. It's about seeing results with an affordable Omega 3 and antioxidant supplement with multiple uses that would be good enough for my family to use. I am so pleased with the results we've achieved with Omega QD!"

Debbie Decker, DVM
Developer and Founder of Omega QD

How do I use Omega QD?
Simply sprinkle over or mix in food. You may add water to food and stir. If your pet does not like fish-type foods, is a picky eater, or the diet has been unchanged for a long time, then you may need to 'blend' powder with a healthy treat or soft food, such as canned pumpkin or baked sweet potato.

How much Omega QD do I give?
Only 1/4 teaspoon for every 10 pounds of body weight daily. Or, use our quick reference dosage chart on the label. It's that simple! And, we even included the measuring scoop! Give 1/2 recommended dose for 3-4 days until the body adjusts to the new supplement.

How do I store Omega QD?
Refrigeration is recommended, but not needed! Store in freezer or refrigerator to reduce aroma and preserve maximal freshness.

Are you really giving your pet the best?

Joint - Skin - Coat - Ears
and much more...

Sardine Oil - Pectin - Blueberries
Recommended by veterinarians,
breeders, groomers,
trainers, and pet owners!

All Natural - Veterinarian Developed

Not all Omega 3's are created equal!

Omega QD gives you the BEST:

~ **Provides powerful Omega 3 EPA/DHA Fatty Acids** from Wild Ocean Sardines, guaranteeing 100% use of all the Omega 3's by your pet. No need for the inefficiency of the ALA in flaxseed and other plant oils, of which only 5-15% of Omega 3's can be converted for use.

~ **Avoids gel capsules** since the gelatin is made from beef and pork skin and bone. These may be difficult to dissolve and may aggravate allergy symptoms.

~ **Is free of 'natural' flavorings and additives** that may aggravate allergy symptoms.

If your joint or coat supplement delivers any less - your pets ARE NOT getting the benefits they need!

Visit us online, find out where to purchase, & learn more!

What Can Omega QD Offer You?

A Unique and Powerful Blend of Nutrition:

- ~ From 100% Wild Ocean Sardines!
- ~ 675 mg EPA/DHA Omega 3's per teaspoon.
- ~ Blueberries provide a full serving of strong antioxidant benefits.
- ~ Fruit pectin supports optimal absorption.
- ~ Only 1/4 teaspoon for every 10 pounds of body weight daily!

All-Natural, Fresh Ingredients:

- ~ No artificial flavorings or ingredients.
- ~ Third party tested for heavy metals and other contaminants.
- ~ Formulated, ingredients sourced, and made in the USA.
- ~ Dogs, puppies, cats, and kittens all love the taste!

The key health benefits of Omega QD:

- ~ Maintains healthy skin, glossy hair coat, and optimal ear health.
- ~ Supports hip, knee, and other joint flexibility.
- ~ Alleviates joint aches related to exercise.
- ~ Promotes healthy heart, eye, and kidney function.
- ~ Supports healthy brain function and strong immune system.

The natural game changer!

What's the Powder Advantage?

Our unique, never-seen-before powder formula can make the difference! The all natural fruit pectin added to our formulation supports the fish oil in the digestive tract, promoting absorption of the beneficial Omega 3's.

What's the result? Omega QD is likely to be more completely absorbed. So, smaller amounts can produce fast, healthy benefits.

"When we broke out the Omega QD, our dogs loved the taste! Within four days, we were already seeing results in conditioning and appearance. We recommend Omega QD to our clients without reservation!"

Kelli Collins & Jeff Schettler, Owners
Georgia K9 National Training Center

"I have had great success with Omega QD. This is the best Omega supplement I've ever tried!"

Tonya Amiri, DVM, Owner
Steeplechase Veterinary Hospital, Cumming, GA
